WELCOME

On behalf of **Osterloh Brahman and Beefmasters, Hobson & Co** (Paul Hobson and his team) we would like to take this opportunity to welcome you to our **Bull & Female Production Sale**.

All the cattle on sale are run on virulent **Heartwater, Redwater and Gallsickness** veld. All the cattle have tested negative for CA and TB and the bulls have been fertility tested, sheath washed and vaccinated against Vibriosis. Vaccinations also include Bovi Shield Gold, One Shot Ultra, Lumpy Skin, SupaVax, Ovillis Enzo Vax and Chlamyvox.

We are proud of the performance figures (EBVs) and consistently good testes of the bulls on offer today. You will note that we put a lot of emphasis on maternal lines as we believe that a bull is only as good as his maternal lineage. Our entire Brahman herd is line bred and goes back to 4 Pure Manso bulls, namely JMD Elefante Manso 226, Sugarlands Rexcrata 229, Lokmor Suville 11 and JDH Loxey Gamel De Manso 55. We have kept our bloodlines pure and never crossed them with Nelore, Indu, Gir, etc.

Our Beefmaster herd started in 2013 with some females sourced locally and 50+ heifers from the BOS Blanco herd from Kroonstad. We are currently also line breeding our Beefmasters, concentrating on BOS Blanco genetics (via sires and AI).

We select for hardy, functional, early to medium maturing cattle that can produce and reproduce off grass without excessive supplementation.

We would like to thank all our sponsors and Paul Hobson and his team for the effort they put towards the sale. If you need any assistance in selecting the right animal for your needs, please consult with one of the above people.

We would also like to thank all who have supported us in the past, we greatly appreciate it. If you experience any problems with your purchases, please let us know.

We hope you get the animals of your choice and that you have a safe trip home. **KEEP SAFE!**

Yours sincerely,

Eugene & Poekie

PS: Remember "A GOOD BULL DOESN'T COST, HE PAYS!"

Rather use an average bull that is backed by good genetics than a good-looking bull that has no genetics
